

In folate-dependent cancers...

# KNOWING HOW TO TREAT BEGINS WITH IDENTIFYING WHO.

In the future, the treatment of folate-dependent cancers may depend on identifying folate receptor status.

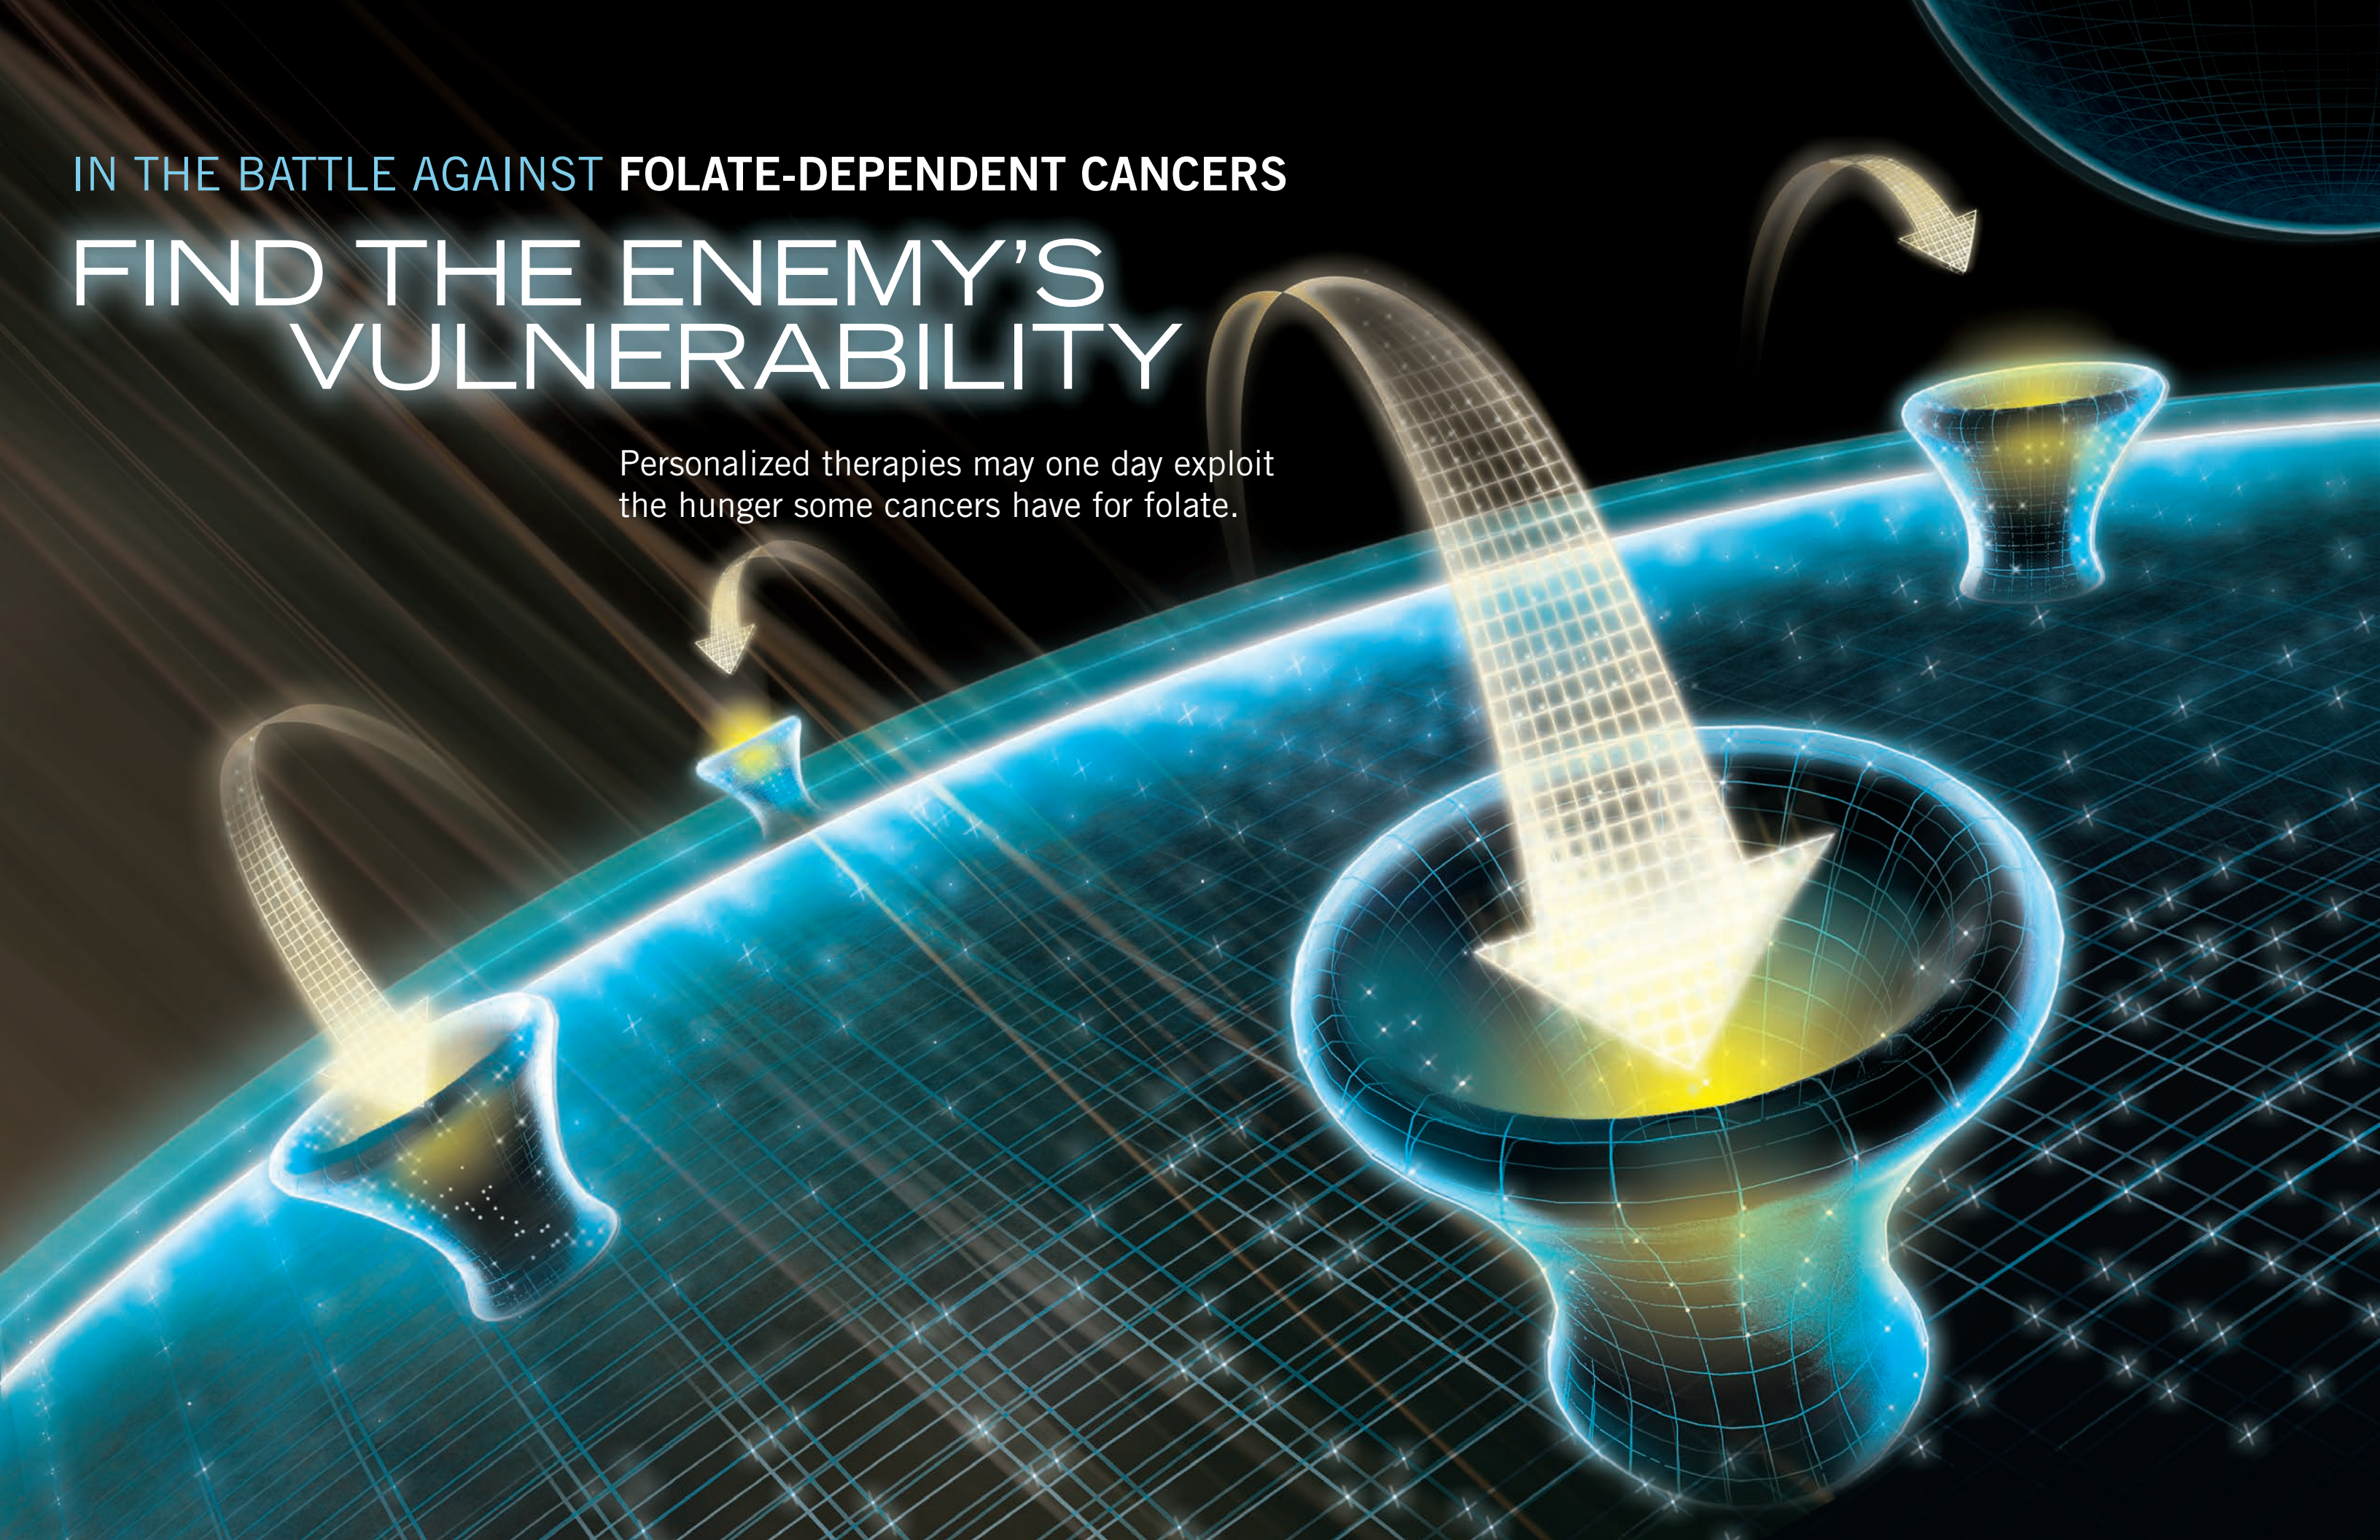

**IN FOLATE-DEPENDENT CANCERS**  
**KNOWING HOW TO**  
**TREAT BEGINS WITH**  
**IDENTIFYING WHO**

In the future, the treatment of folate-dependent cancers may depend on identifying folate receptor status.

IN THE BATTLE AGAINST FOLATE-DEPENDENT CANCERS

# FIND THE ENEMY'S VULNERABILITY

Personalized therapies may one day exploit the hunger some cancers have for folate.

# THEIR **FOLATE RECEPTOR STATUS** SETS THEM APART

ONE DAY, SO WILL THEIR TREATMENT

The beauty of personalized medicine is knowing who will benefit before treatment begins.

# THEIR **FOLATE RECEPTOR STATUS** SETS THEM APART

ONE DAY, SO WILL THEIR TREATMENT

The beauty of personalized medicine is knowing who will benefit before treatment begins.

# THEIR **FOLATE RECEPTOR STATUS** SETS THEM APART

**ONE DAY, SO WILL THEIR TREATMENT**

The beauty of personalized medicine is knowing who will benefit before treatment begins.

IS FINDING THE

FOLATE  
FEEDING  
SYSTEM

THE KEY TO  
FIGHTING CANCER  
MORE PRECISELY?

Personalized therapies may one day exploit  
the hunger some cancers have for folate.

IF YOU CAN IDENTIFY  
WHICH RECEPTORS ARE  
**HUNGRY FOR FOLATE**

**CAN YOU FIGHT CANCER  
MORE PRECISELY?**

Personalized therapies may one day exploit  
the hunger some cancers have for folate.

WILL FINDING THE

FOLATE  
FEEDING  
SYSTEM

FIND WHO TO TREAT?

Personalized therapies may one day exploit  
the hunger some cancers have for folate.
